SUMMARY

Dedicated Front End Developer with 5 years of hands-on experience in Modern JavaScript, Vue.js, HTML, and CSS. Proficient in optimizing website performance and ensuring cross-browser compatibility through cutting-edge optimization techniques. Demonstrated success in handling complex logics and expertise in reducing time complexity. Skilled in crafting pixel-perfect responsive pages with a mobile-first approach. Eager to leverage my expertise in front-end technologies to contribute to the development of high-performing frontend systems.

TECHNICAL SKILLS

- **Languages:** JavaScript, HTML, CSS, Java
- **Frameworks/Libraries:** Vue, Vuex, Quasar, jQuery Tailwind, SASS/LESS
- **Tools:** Jira, GitHub, Postman, Swagger, Perforce, Figma

WORK EXPERIENCE

QuinStreet - Frontend Developer

Nov 2022-Present

360 Finance, a division of QuinStreet, is dedicated to providing tailored financial solutions to empower consumers in their home improvement journey.

- Actively participated in 95% of the frontend development lifecycle, from inception to the MVP launch in December 2023.
- Utilized a tech stack including Vue JS for frontend, Tailwind CSS with Quasar for UI design, Vuex for state management, and Axios for API requests.
- Developed critical components such as product selection screens and dashboards.
- Implemented complex functionalities including filters, sorting, and performance optimizations.
- Integrated various third-party services for user identification, tokenization, and issue monitoring.
- Ensured adherence to high-quality development standards, conducting thorough code reviews, emphasizing accessibility, and performance in pixel-perfect screen development from Figma designs.
- Led agile development processes, managing releases and ticketing efficiently with Jira.

Anatta - Frontend Developer

May 2022-Oct 2022

Anatta is a leading eCommerce service provider including design and development both.

- Developed e-commerce features for a North American eBike brand, using JavaScript & Vue.js for frontend and integrating with Shopify backend via REST API. Managed Agile deployments with Buddy CI/CD.
- Ensured pixel-perfect design consistency across the website using Tailwind CSS with HTML & CSS, enhancing overall visual appeal.
- Led efforts to refactor and optimize codebase, resulting in improved web vitals and enhanced accessibility standards, ultimately enhancing user experience.
- Collaborated with cross-functional teams to identify and address performance bottlenecks, resulting in significant improvements in website responsiveness and load times.
- Conducted regular code reviews and implemented best practices to maintain high code quality and ensure scalability of the frontend infrastructure.

Red Nucleus – UI Developer

April 2019-April 2022

Red Nucleus is the premier provider of learning, performance, and process solutions for the life sciences industry.

- Developed 25-30 interactive e-learning modules using a native JavaScript framework.
- Replicated UI designs accurately from provided mock-ups using HTML & CSS preprocessors like SASS & LESS.
- Addressed cross-browser compatibility issues for Safari (iOS), Firefox, and Edge (IE), while also creating user-friendly and responsive screens for mobile and tablet devices.
- Managed code base efficiently using Git for version control.

EDUCATION

Masters in Computer Science

2019-2021

Vishwakarma College of Arts, Commerce & Science, Pune University, India

Bachelors in Computer Science

2016-2019

Vishwakarma College of Arts, Commerce & Science, Pune University, India
